

 **CROC**[®] ForkCoatings

A CROC[®] that won't take a "Bite" out of your budget!

CROC®

Top craftsmanship and high-quality materials made for the tough day-to-day use

-  Polyurethane and rubber compounds made in Germany
-  Equipped with collision protection at the fork tip
-  High-tech special adhesive for permanent coating
-  1000-fold approved in practice
-  The competence of Europe's No. 1 fork manufacturer
-  High abrasion and cut resistance
-  Resistance to oils, acids, chemicals and solvents
-  Temperature and weather resistant
-  Long lifetime

CROC® ForkCoatings

Better working!

Increase visibility and efficiency

Stop slipping goods

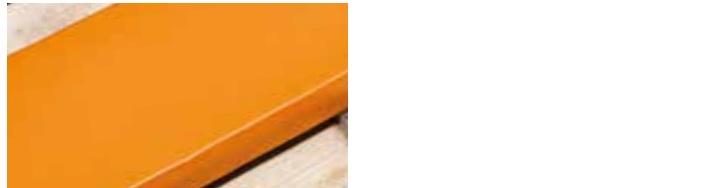

Protecting products

Reduce noise

CROC® coatings efficiently reduce risks and save time, money and trouble by minimizing transport damages and thus insurance claims. They require less cleaning work and allow for smooth transport processes.

CROC® ForkCoatings

Perfectly matched to individual applications

- | | | | |

CROC® ForkCoatings

Versatile and individual

Noise reduction and slip resistance

CROC® „red unprofiled“

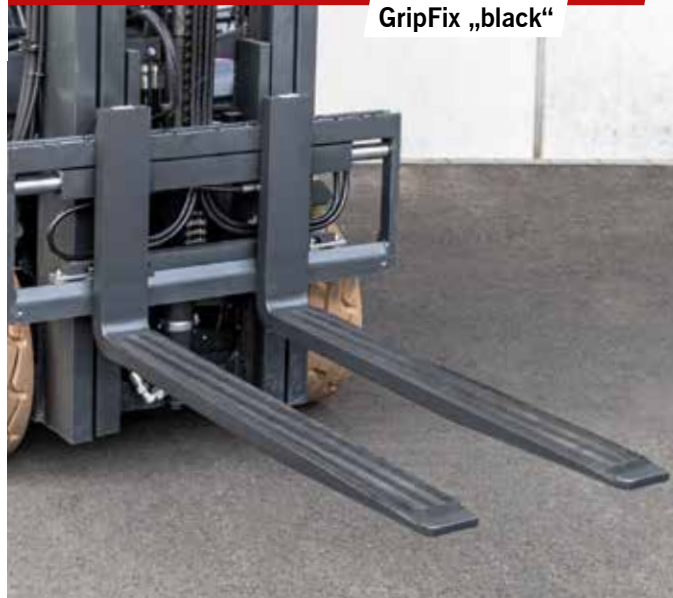

Well-proven, solid collision protection at the fork tip

CROC® coating „red“: noise reduction when transporting steel plates

Slip resistance in wet conditions

GripFix „black“

GripFix for optimum slip resistance in wet conditions

Food industry

CROC® „blue unprofiled“

CROC® „blue unprofiled“ for the food sector

Protection of loads

CROC® spray coating

CROC®-coated fork extensions transport concrete tubes low-noise and careful

High slip resistance

CROC® „yellow profiled“

Profiled CROC® coating „yellow“ on the fork

That's why CROC®!

“ CROC® is a great help to us to make transport as safe as possible. This is particularly important because we work with sensitive goods every day. We are positively surprised!

– Jozef G., forklift driver –

“ The CROC® coatings help us to load much faster and more efficiently.

– Valon M., logistics –

Clever Helpers

Retrofit solutions for temporary and short-term alternating applications!

GEKKO Magnetic anti-slip layer

Slip resistance and noise reduction on the fork blade

GEKKO
made by VETTER

Integrated loop...

... for an easy pull off.

When not in use:
Simply attach to the lift mast...

... or the counterweight
– the magnets will hold!

KOALA Impact protector

Collision protection in the fork back

KOALA
made by VETTER

with adhesive strap (velcro)

Easy attachment to the fork back

or magnets

Attach to the lift mast when not in use

5 good reasons for VETTER:

1. Trust in the competence and experience of a world-wide leading fork manufacturer.
2. Fast and independent decisions - that is what VETTER stands for since 1889.
3. You have access to the largest fork program worldwide, standard or customized, in all sizes, for each and any application and always with an eye to your individual demands.
4. Take part in revolutionizing the logistics of the future: VETTER is leader in the field of forks for Logistics 4.0.
5. Individual service – personally and on site.

Logistics is future
... and VETTER provides the tool:
THE FORK*****

At your service - worldwide!
